Project information

Project title

Project start date

Project end date

Grant type (maximum) \$65,000 \$30,000 \$15,000 \$5,000

Amount requested (exact)

Is this project scalable? Yes No
(i.e. would you consider accepting a grant of a different amount?)

Executive summary

Identify your project theme and highlight the problems or opportunities you will address, the main activities, including any innovative approaches.

Limit your response to 1500 characters.

**Project
description**

Describe the project in detail. Why is this project important? What activities are involved? How do you plan to explore your research questions? What will you produce as a result? Please be as concrete as you can in your description. Limit your response to 7500 characters.

Budget

Narrative

Provide us with a narrative explaining your budget. Describe in detail the expenses associated with all project activities. Please refer to the specific line- item number from the budget template when explaining expenses. Also explain any uncertainties with these projected expenses. Limit your response to 4000 characters.

**Results:
outputs**

(products)

*Describe what
your project will
produce.*

Examples include:

*papers,
books,
conferences
proceedings,
curricula, prize
competitions,
films, and
events.*

*Limit your
response to 1500
characters.*

what kind of
impact, both
academic and
public, you
expect to arise
from your
project.*

*Limit your
response to 1500
characters.*

**Longer term
plans in relation
to the project**

*Please tell us
your project's
potential for
longer-term
success. How will
this project
benefit you and
your institution in
the longer
term?*

*Limit your
response to 1500
characters.*

Project team

*List the people
involved in the
project and how
each person will
contribute to the
success of the
project.*

*If your project
has only one
member, please
put down your
name and
explain how you
will bring this
project to
success.*

*Limit your
response to 1500
characters.*
